

# Biosafety Cabinet Certification

The University of Saskatchewan has secured a preferred service provider for the certification and servicing of biosafety cabinets (BSC) on campus. The following includes contact information and pricing from Con-TEST.

As per the Canadian Biosafety Standard, 2nd Edition (2015), all BSC's need to be certified upon initial installation, annually, and after any repairs, modifications, or relocations. Clean benches require certification after installation only. Arranging and paying for biosafety cabinet service is the responsibility of the owner of the units (department / working group / principle investigator, etc.).

## Contact information

**Leighton Davey**, Local Service Technician, Saskatoon; Con-TEST

- Email: [leighton@con-test.com](mailto:leighton@con-test.com)
- Mobile: 306-251-0185
- Office: 1-800-321-3816

## Pricing

All prices are effective as of Jan. 31, 2018.

- Prices are per each unit.
- Prices are subject to GST.
- Price of parts and/or filters is not included in the service prices.
- All costs associated with servicing BSC's and clean benches are to be covered by the owner of the system or the department.
